OCULUS SURGICAL

BIOM® Optic Set

High-definition wide field front lens and reduction lens in single-use design

The perfect view in every case

- Extremely wide field of view with outstanding resolution
- HD clarity under high magnification reduces the need for a contact lens
- Full-field clarity for decreased scleral depressing and panretinal laser
- Excellent depth of field for better stereopsis
- Improved view during air/fluid exchanges
The NEW BIOM® Optic Set

- Always ready, convenient blister pack design
- Minimizes risk of infection and cross contamination
- No sterilization “down time” for O.R. increased efficiency

Convenient and sterile blister package*

BIOM® HD Disposable Lens

New reduction lens increases surgical efficiency
